

Census Resources

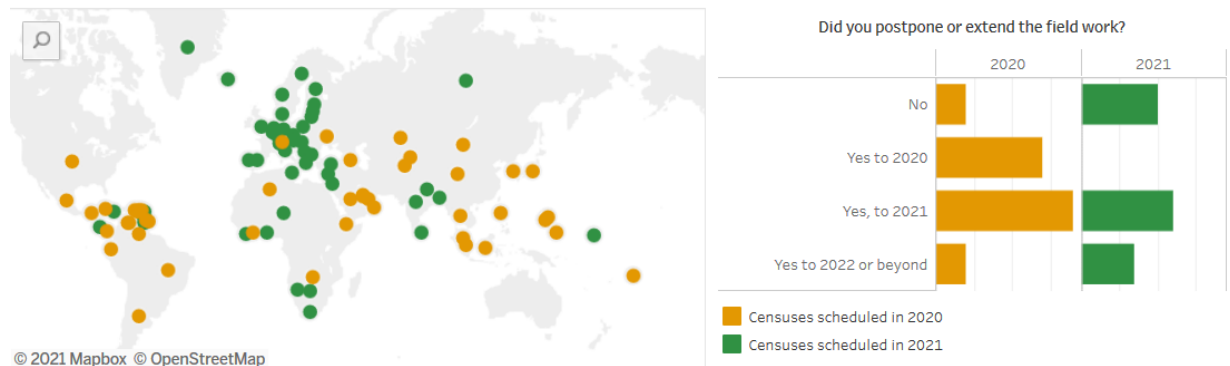

CJB, October 2021

1. I-PUMS International <https://international.ipums.org/international/>

IPUMS International is dedicated to collecting and distributing census microdata from around the world. The project goals are to collect and preserve data and documentation, harmonize data, and disseminate the harmonized data free of charge. 102 countries – 473 censuses and surveys – over 1 billion person records.

IPUMS provides census and survey data from around the world integrated across time and space. IPUMS integration and documentation makes it easy to study change, conduct comparative research, merge information across data types, and analyze individuals within family and community context. Data and services available free of charge.

2. Impact of COVID-19 on 2020 round population and housing censuses: UN Statistics Division <https://unstats.un.org/unsd/demographic-social/census/COVID-19/>

3. National Statistical Offices https://unstats.un.org/home/nso_sites/ web links to national offices and Census Bureaus around the globe.
